

the Zoological Society of Philadelphia

Kerri and John Hunter have been working for me almost two years. I feel Kerri's Cat Care service is the best animal service I have ever come across. Kerri and John's service to me and my dog was extremely professional and very caring. By profession, I am Lead Zookeeper of the Reptile House at the Philadelphia Zoo. I have high standards and expect anyone who works with and walks my dog to be able to notice anything unusual. Kerri and John have proved many times over to be very knowledgeable on animal behavior. They make it a point to know the animals personality and thus be able to address a potential problem. After every walk, Kerri and John wrote on a daily report anything they felt was important. They have also shown such professionalism with my other exotic pets.

Kerri also offered me an additional service. While on a recent trip to Australia, she frequently came to my apartment to water plants and check my belongings. I have a tremendous amount of trust in her.

Kerri is available all hours of the day and she has always returned my calls.. If there was ever a sudden change in my plans, Kerri was always easy to reach..

I feel that I will never find such a well run and prompt service again. I will truly miss Kerri's Cat Care. I feel that anyone interested in Kerri's service will not be disappointed. She has genuine concern for animals. The amount of experience and knowledge Kerri has is comforting to even the most overprotective client. I know, because I am such a client.

Sincerely,

Rebecca Glick
